Good Speculative Business in Corn, Accompanied by a Firm Feeling-Oats Firm and Higher-Provisions Active and Higher.

MONEY, BONDS AND STOCKS.

A Decrease of Activity in New York, with a Firm to Strong Closing. NEW YORK, Aug. 1 .- Money on call was

easy at 1 to 14 per cent. Prime mercantile paper, 426 per cent. Sterling exchange was quiet and unsettled, with actual business at \$4.85 for sixty-day bills,

and \$4.87 for demand. The total sale of stocks to-day were 234,318 shares, including the following: Canada Southern, 4,270; Delaware, Lackawanna & Western, 6,360; Lake Shore, 28,969; Louisville & Nashville, 4,438; Northwestern, 7,010; Northern Pacific preferred, 8,600; Ohio & Mississippi, 3,150; Reading, 17,300; Richmond & West Point, 500; St. Paul, 27,875; Western Union, 21,120; Union

Pacific, 36,422; Wheeling & Lake Erie preferred,

The stock market was less active to-day, and, while hesitating in the forenoon, was more active and stronger later in the day, and finally scored material advances in most of the list. There was some selling by London in the early fealings, and considerable pressure from the "bears" to sell stocks, which had the effect of ppening the list down and keeping the market in an unsettled and somewhat feverish condition during the entire forenoon. The feeling in the room was not so pronouncedly bullish, as in some quarters there is now an expectation of a reaction, and the buying was on a smaller scale than the first two days of the week, except in a few properties specially affected by certain conditions peculiar to themselves. The grangers were less prominent than for some time, as were also the Gould stocks, while the Vanderbilts came to the front. Lake Shore leading the advance. Several prominent brokers took round amounts of the stocks mentioned, and the inference was that the buying was for inside account, which also had a marked influence for good upon the general list. Union Pacific was sold heavily at first, but was well supported later and recovered handsomely. Western Union was again decidedly strong and active, but most of its advance was neutralized toward the close. The coal stocks were more quiet to-day, and presented no feature of interest whatever. The news of the day was not so uniformly favorable, but had little influence, and the dealings were confined to the professional element more than usual of late, though commission people talk none the less bullish. The opening was fairly active and heavy to weak as compared with last evening's prices, but the market recovered its tone immediatel, through the advances, except in Western Union and Wheeling & Lake Erie preferred, we confined to small fractions. The list then reacted and became dull, but continued feverish within narrow limits until toward 2 P. M., when a firmer tone appeared, accom-panied by an increased trading, Union Pacific and Lake Shore taking the lead. Material advances were established all over the list. New England also became a feature, and several specialties, such as Oregon Improvement, Pullman and St Paul & Duluth made very sharp gains. There was some reaction in the last hour, but the market fluxly closed firm at or near the

best prices of the day.

The railroad bond market was quiet, the sales aggregating only \$1,127,000, of which the Western New York & Pennsylvania firsts contributed \$145,000. As usual, of late, a firm tone marked the dealings, but there was no feature of interest, and while the final prices generally show advances they are for small fractions only in the great majority of the list. Chesapeake & Ohio sixes of 1911 rose 2, to \$1.03.

Government bonds were dull and steady. State bonds were dull and steady. Closing quotations were:

Cheese steady and quiet; Onio flat, 728tc.

CHICAGO, Aug. 1 .- The excitement in the wheat market continues and the movement of speculative values to-day was characterized by the wildest of fluctuations. It has come to be a common occurrence for the daily changes to ly heavy trading to-day, fully as large as that of Monday, and the market again changed front. On the down turn yesterday the local crowd got "short," and in the rush to cover this morning prices were advanced sharply, opening figures for the leading futures being 11 @11c above yesterday's closing range. Later a further advance of tolo was scored, and reactions, though frequent, were only natural. The feature of the day was the contradictory news from abroad. Public cables read: "Spot wheat easy and 1d lower; grain futures easy, with prices tending down for wheat" Private cables were, in a majority of cases, extremely "bullish" in tone, and as they were generally accompanied by generous buying orders, they appeared to have by far the greater influence. There were practically no deliveries to-day on maturing August contracts, an unusual thing and one that helped the sensational buying. New York parties bought largely in this market to-day, and all surrounding markets were higher. Prices for September wheat eased off to from the highest point touched during the last hour, but there was a net gain for the day in the leading futures of 11 21 tc. An export order for 160,000 bushels of No. 2 spring was filled bere, and another 160,000-bushel order could not be executed at the limits named. A good speculative business was transacted to-day in corp, and the feeling developed was quite firm. There was good general buying all day, while the offerings were exceedingly limited. The market opened considerably excited at ½@½c advance over the closing prices of yesterday, was firm and ad vanced 1c, reacted ½c, and closed 1½@1½c higher than yesterday. Deliveries on August contracts were next to nothing, showing that shippers hold considerable corn, and this, together with the active demand for cash, created considerable strength. The quantity on ocean passage showed a moderate decrease. The more deferred deliveries were in better demand and ranged higher. In oats a firm feeling prevailed, with prices showing to advance for August, and twice improvement for deferred futures. There were no deliveries on August contracts; the reason for this was said to be that stocks consist mainly of old oats which are held at a premium over August or new oats prices. The arrivals to-day were also much below the estimates of yesterday, and the upturn in wheat and corn was an important factor in stimulating the demand. There was quite free covering by "shorts." The interest in provisions centered in pork, which was active, stronger, and prices advanced 30c from the opening, but receded 7tc, and closed at a net gain of 22 c. Deliveries on August contracts were light, being 12,000 to 15,000 barrels. Outsiders sent in fair buying orders, and local "shorts" also bought liberally. Offerings were not large, and prices were easily bid up. September opened at \$14.65 @14.95, and closed at

Receipts. 2,055; shipments, 40.

INDIANAPOLIS MARKETS. A Healthy Volume of Trade in Progress -Prices Ruling Firm. INDIANAPOLIS, Aug. 1.

In nearly all departments a healthy volume of trade is in progress, and with this, on most staple articles, prices are ruling steady and firm, and the present month, all things considered, opens under very favorable auspices. But few grumblers are to be found. In the dry goods market there is increasing inquiry for fall goods, and the firmness in prices makes it safe to buy on a larger scale than when prices are fluctuating, as is often the case in the fall months. The wool market shows more activity. but prices have not yet advanced. Sales of wool in Boston last week were 2,176,200 pounds, agaisst 2,508,500 the previous week, and against 2,132,600 pounds the same time last year. Sales since Jan. 1 aggregate 74;431-550 pounds, an increase of 4,173.591 pounds over the same time last year. The provision market is quite active. Steam lard was sold to-day at 9 cents per pound, there being two large sales at that figure. In a jobbing way a good deal is do-ing. Grocers are fairly busy. Suffars East are still a little offish, but prices have not broken sufficiently to affect the Western markets. Cof-

rather slow, and much of the stock poor; prices firm. Butter, if choice, still meets with ready sale. Apples plenty and cheap. Berries scarce and higher. Watermelons more plenty and prices weakening; the same is true of nutmeg melons. Receipts of peaches large. Prices for really choice fruit well maintained. Pears in large supply, good fruit selling at \$2 50 per bar-

There was a good attendance on 'Change today and a better feeling noticeable among dealers. Inspector's report shows an improvement in receipts of grain-wheat, 82 cars; corn, 22 cars; oats, 9 cars; rye, 2 cars; hay, 1 car, Wheat in good demand. Prices bid on grade were as below. By sample, No. 3 red sold at 73 @ 80c; rejected. 67 @ 77c; unmerchantable, 56 @ 70c. Corn-White grades in good demand; mixed grades slow sale. Oats-Old mixed in good demand. New grades are in fair demand

FIELD SEEDS Wholesale and Retail at HUNTINGTON & HOSS' SEED STORE, 78 and 80 E. Market st., Indianapolis. Samples and prices furnished on application.

The hair should be washed frequently in the summer time, as it is more exposed to dust, which, with perspiration, renders it liable to dandruff and retards its healthy growth. It should be washed as often as every three weeks. The yolk of an egg. slightly beaten and rubbed well into the roots, is an excellent thing to make the hair soft and silky. Then the hair should be rinsed out in tepid water, to which a few drops of ammonia has been added. Sage tea is another good tonic, and is said to preserve the color of the hair. Put two or three spoonfuls of sage in a cup and pour boiling water over it. When the tea is cold, rub it well into the scalp and rinse the bair as directed.

When Baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria When she became Miss, she clung to Castoria, When she had Children, she gave them Castorie
